

Reels

Customisable for storage and installation

Sectors

- Renewables
- Communications
- Offshore energy.

Applications

- Subsea umbilicals
- Flexible pipes
- Mooring wires
- Power cables.

Features

- Reel assembly features inner hub to interface with Innovo's Innodrive Reel Drive System (RDS) for reel deployment
- Includes lifting spreader bar, saddles, auxiliary equipment
- Product loading capacity up to 800mT
- Reel OD range up to 14m.

Benefits

- Installation possible from various vessels or barges
- Can be designed in different dimensions and weights up to maximum original design parameters
- Supplied with dedicated saddle suitable for any short to long term product storage requirement prior to deployment
- Capable of operating in temperatures as low as -20°C.
