

Shipyards elevator

State-of-the-art assistance for shipbuilding

Innovo's shipyard elevator provides safe and reliable vertical transportation during the construction, modernisation or renovation of a cruise ship.

Features

- Electrically powered, with inverters for smooth start / stop phases and increased durability
- Manufactured with a steel coated frame for use in shipyards, with customised configuration for client's requirements
- Engineering and testing approved by Italian State Notified Body
- Designed, manufactured and tested according to EN 16719: Transport platforms.

Benefits

- Facilitates the flow of incoming and outgoing materials
- Modular arrangement enables fast and easy assembly
- Low impact on ship's structure.
